

# Salisbury City Centre Business E-News Wednesday 20th March 2024

Spotlight on Salisbury City Centre (Fortnightly Publication of the Salisbury Business Association Inc.)

Salisbury City Centre ... Something for everyone!

#### Meet our Board ...

Each edition we will share with you a Director's Profile so you can get to 'meet' the people who support and lead your Association.

We thank all of our Board Directors for their willingness to go the extra mile to support the Association and its members.

David Waylen – Executive Officer, SBA Inc.

#### Board Chair – Marty Edwards

Marty joined our Board in 2021, and became Vice President, prior to becoming Chair at the AGM that year.

Marty is Partnerships Manager with Multiple Solutions and has a

wealth of experience across both the corporate and community environments.

He has a passions for local initiatives and the ever-changing needs to promote a vibrant thriving community. On an almost daily basis, Marty sees the changing face of Salisbury and is always amazed by the tenacity of the local traders. We have a great balance between entrepreneurial pop-ups and familiar faces of people who have been around for generations.

The new Salisbury Community Hub and John and Church Street Redevelopment, coupled with vibrant family fun days and space activation are delivered with what appears to be a *never give in approach* to try new things to grow the positive profile of our City Centre Community.

Marty continues to give his time, enthusiasm and willingness to support the continuous improvement of the community in which he has been blessed to work in for the past 25+ years.

We thank Marty for sharing his passion and expertise with us.

#### Office Easter Closure

Please Note:

The SBA Office will be closed for an extended period over Easter (Tuesday 26<sup>th</sup> March to Wednesday 3<sup>rd</sup> April inclusive) and our Executive Officer will be on leave.

If you have an urgent issue, please email <a href="mailto:info@salisburyba.com.au">info@salisburyba.com.au</a> or via Messenger.

We apologise for any inconvenience.

#### **a** Easter Long Weekend.

Reminder,
Parabanks and
many businesses
will be closed on
Good Friday,
Easter Sunday
and Easter
Monday public
holidays.

Most retail

businesses will open on Easter Saturday.

If your business is exempt, and able to trade on public holidays, please share via your social media that you will in fact be open, and your opening hours for the weekend.

Where possible, we will showcase those businesses that are open across Easter on our Salisbury City Centre Facebook Page.

#### Feature Article ...

#### 31 energy saving tips to slash your business energy costs

Reproduced from www.zembl.com.au

It's no secret that Aussie businesses have been bearing the brunt of energy price shocks, especially over the last 18 months. We're living in an era where business energy efficiency isn't just a trend - it's a necessity. Businesses of all sizes are feeling the pinch of rising energy costs and the pressing need to reduce their carbon footprint.

But in reality, how can a business really reduce their overall energy consumption, and by default, their energy bill? Check out these 31 energy saving tips that can help your business cut energy costs without sacrificing productivity or comfort.

#### 1. Get an energy bill review

Kickstart your journey with an energy bill review. Before you look at how to reduce your overall consumption, you need to know that you're not paying more than you should be for energy in the first place. Compare your current energy plan against alternatives available from business electricity & gas retailers.

#### 2. Seal air ducts

Don't let your hard-earned money escape through leaky ducts. Sealing air ducts can drastically reduce heating and cooling costs.

#### 3. Improve heating and cooling systems

Outdated HVAC systems can be energy guzzlers. Upgrading to more efficient systems is a great way to curb energy consumption and enhance your business's sustainability.

#### 4. Replace windows

Single-pane windows are a relic of the past. Double or triple-pane windows provide better insulation, reducing both heating and cooling expenses.

#### 5. Upgrade lighting

Swap out traditional incandescent bulbs for LEDs. This simple switch can result in significant savings.

#### 6. Invest in energy-efficient appliances

Invest in appliances that use less electricity, qualify for rebates or tax incentives, & require fewer repairs/ replacements.

#### 7. Prevent 'vampire' energy drain

Stand against 'vampire' energy. Unplugging chargers and equipment when not in use prevents unnecessary energy consumption. Do you really know how much energy your Wi-Fi router is using?

#### 8. Time your signage

Illuminate your signs only when needed. This direct move conserves energy and extends the lifespan of your signage.

#### 9. Turn off the lights

Embrace the motto "lights off, savings on." Encourage employees to turn off lights when leaving a room. This will create an energyconscious culture within your business.

#### 10. Program your thermostats

Use smart thermostats to lower temperatures during off-hours. This optimises energy consumption and keeps your office comfortable when it's occupied.

#### 11. Reduce peak demand

Avoid high-cost energy periods by shifting nonessential power use to off-peak times. An assertive approach to cost-saving that's good for both your bottom line and the environment.

#### 12. Establish energy-efficient practices

Build a culture of energy consciousness. Simple practices like shutting down computers at the end of the day can lead to significant savings over time.

#### 13. Maintain equipment

Regular maintenance ensures optimal performance & energy efficiency of your equipment.

#### 14. Use solar power

Invest in solar power. This renewable energy source can significantly reduce your energy bills and carbon footprint.

### 15. Optimise your heating and cooling systems

Regular servicing ensures your HVAC systems are performing at their best, improving energy efficiency and saving you money.

#### 16. Maximise natural light

Harness the power of the sun. Using natural light reduces your need for artificial lighting and creates a healthier workspace.

#### 17. Use a power strips

Even when they're off, devices draw power. Power strips cut this phantom power, saving both energy and money.

#### 18. Insulate your office

Quality insulation can significantly reduce the load on your heating and cooling systems, leading to substantial savings.

#### 19. Install motion sensor lights

Install motion-sensor lighting in areas with low foot traffic. This will eliminate the need to turn off lights when you leave the room. It will ensure lights are only active when needed, saving energy and prolonging the light bulb life.

#### 20. Use energy-efficient computers

Laptops typically use less electricity than desktop computers. Keep this in mind during your next tech upgrade.

#### 21. Educate your team

Equip your staff with knowledge on energy efficiency. E.g. leaving computer monitors on in the office uses energy and costs money.

#### 22. Go paperless

Switching to paperless billing and document management saves resources and significantly reduces energy consumption.

#### 23. Buy green power

Purchasing green power is an excellent way to reduce your carbon footprint..

#### 24. Upgrade HVAC systems

Newer HVAC models are more energy-efficient, leading to long-term savings.

#### 25. Implement smart PC power management

Use power management settings to ensure computers enter standby mode when not in use, minimising energy wastage.

#### 26. Go green with landscaping

Planting trees around your building can provide shade in the summer and windbreak in winter.

#### 27. Install a tankless water heater

Tankless water heaters heat water on demand, eliminating the cost of keeping water hot when it's not needed.

#### 28. Opt for virtual meetings

These cut travel costs are convenient, efficient, and environmentally friendly.

#### 29. Choose energy star appliances

Energy Star-certified appliances are designed to be more energy-efficient than standard models and can save you hundreds if not thousands of dollars per year.

#### 30. Use a laptop instead of a desktop

Laptops consume five times less electricity for businesses than desktops.

#### 31. Remote monitoring

Monitor your energy usage remotely to identify trends and opportunities for further savings.

By implementing these energy saving tips, you'll see a notable reduction in your energy bills but also make a positive environmental impact. Get started today and enjoy the benefits of a greener, more efficient business.

#### **ENERGY EFFICIENCY**

### Out and about with Hon. Zoe Bettison MP ...

Happy Harmony Week ...

Stay tuned for more of what's happening locally.

Please don't hesitate to contact Zoe at 2/40-42 Commercial Road, Salisbury or call 8258 0480 or E: <a href="mailto:ramsay@parliament.sa.gov.au">ramsay@parliament.sa.gov.au</a> or <a href="https://www.facebook.com/ZoeBettisonMP">https://www.facebook.com/ZoeBettisonMP</a>

# SCC Business Watch ... Cyber Security for Not-For-Profits and Charities - Tips to avoid common cyber threats

Cyber security is essential for all charities and not-for-profit organisations.

In the 2022-23 financial year, ASD received nearly 94,000 cybercrime reports.

The effects of a cyber security incident can be devastating which could include:

- financial loss
- data breaches
- · reputational damage
- loss of trust from donors and beneficiaries
- harm to the communities you serve.

#### Key cyber threats

- Phishing
- Business Email Compromise
- Ransomware

### Top cyber security tips for not-for-profits and charities

- 1. Turn on multi-factor authentication where possible.
- 2. Check automatic updates are on and install updates as soon as possible.
- 3. Back up important files and device configurations often & test your backups on a regular basis.
- Use a reputable password manager to create strong, unique passwords or passphrases for your accounts.
- 5. Provide cyber security training, particularly how to recognise scams/phishing attempts.
- Use access controls and review them often so staff can only access what they need for their duties. This will reduce potential unauthorised access to systems.
- 7. Use only reputable and secure cloud services and managed service providers.
- Test cyber security detection, incident response, business continuity and disaster recovery plans often.
- Review the cyber security posture of WFH or remote workers and connections. Make sure staff are aware of secure ways to work remotely such as not accessing sensitive information in public.
- Report a cybercrime, incident or vulnerability to protect yourself.

11. Join ASD's Cyber Security Partnership Program as a business or network partner. This free program provides advice and insights on the cyber security landscape.

Protecting your organisation from cyber-attacks is an ongoing process. Review your cyber security regularly to strengthen your resilience. If necessary, seek help from IT professionals.

Download the Cyber security checklist for charities and not-for-profits for additional information and as a great audit tool: <a href="https://www.cyber.gov.au/sites/default/files/2024-03/cyber-security-checklist-for-charities-and-not-for-profits.pdf">https://www.cyber.gov.au/sites/default/files/2024-03/cyber-security-checklist-for-charities-and-not-for-profits.pdf</a>

For further business crime prevention information please visit <a href="www.police.sa.gov.au">www.police.sa.gov.au</a> or contact your local police station.

For more information and updates, visit our dedicated Facebook page

https://www.facebook.com/ SalisburyCityCentreBusine ssWatch/

The SCC Business Watch is a collaboration between the Salisbury Business Association, City of Salisbury and SA Police and is all about keeping you, your staff and our customers safe in the Salisbury City Centre.

#### Member Events

#### 2024 SBA Members Survey

With the John and Church Street upgrades complete and some exciting initiatives proposed by Council involving up to 6 potential development sites, at the end of March we will be asking

our members to provide their feedback on a range of areas that have a potential impact on their business and their customers. These areas include public amenity, precinct activation, waste management, beautification, safety and security, parking, etc.

Please take the time to give us your comments as this will help steer our future direction.

#### Attention All Businesses! Protect yourself with a \$6 PPSR registration

Running your own business comes with many positives, but there are also potential pitfalls to navigate.

The Personal Property Securities Register (PPSR) can help protect your business when buying valuable second-hand items, or if you sell, rent, lease or hire-out goods on terms.

#### **Sellers**

If you sell to your customers on terms, such as retention of title, or lease out goods for more than two years, you can register your interest in the goods on the PPSR. A <u>\$6 registration</u> on the PPSR lasts up to 7 years and can help you claim back the items or their value if your customer doesn't pay or becomes insolvent.

#### **Buyers**

Before you buy, ensure you do a \$2 PPSR search. It can tell you whether valuable second-hand goods, such as used cars, stock, equipment, machinery or boats, are debt free and safe from repossession. The PPSR is accessible online 24/7. Search results are available immediately and you will get a copy for your records.

For more information about how to use the PPSR to protect your business go to <a href="https://www.ppsr.gov.au">www.ppsr.gov.au</a>

#### Privacy Awareness Week 2024

It's time to share the theme for Privacy Awareness Week (PAW) 2024! Monday 6 May to Sunday 12 May

The campaign this year, the OAIC is asking people, organisations and government agencies to 'power up your privacy'.

This sits within the broader theme of 'Privacy and technology: Improving transparency, accountability and security'.

Get your organisation and staff ready for PAW and watch out for our PAW website – coming soon <a href="mailto:oaic.gov.au/paw">oaic.gov.au/paw</a>

# The Federal Wrap Up with Matt Burnell MP, Member for Spence

Monthly Pop-Up Market

Discover unique local creatives and support small businesses. Fun, variety, and much more!

Every second Saturday of the month 9am-3pm

Join us for the Harmony Market

## Fair Work Update Updated Information Statements

Employers must give every employee engaged under a new fixed term contract a copy of the newly introduced <u>Fixed Term Contract</u> <u>Information Statement</u> that became available in December 2023. It provides fixed-term employees with information about fixed term employment, including new rules about when fixed term contracts are allowed to be made.

Employers must also give every new employee a copy of the updated <u>Fair Work Information</u> <u>Statement</u> and if applicable, the <u>Casual Employment Information Statement</u>, before, or as soon as possible after, they start their new job. These have been updated with information about the recent changes to the Fair Work Act..

For current copies of these, go to: <a href="https://www.fairwork.gov.au/employment-conditions/information-statements">https://www.fairwork.gov.au/employment-conditions/information-statements</a>

#### Energy Costs to reduce ...

Some long-overdue relief on power prices on the horizon. The Australian Energy Regulator has announced a cut in the default market tariff to kick in from July 1.

For South Australian households the expected saving will be 2.5% or an annual average of \$57, while for **small businesses it will be 8.2% or \$481.** 

#### **Small Business Week 2024**
